

FIVE WAYS TO CONSERVE WATER IN YOUR BUILDING

Water wastage can cost your business thousands of pounds in unnecessary charges every year. Here are our top five ways to conserve water in your business:

1

IDENTIFY AND FIX LEAKS

Keep your pipes well maintained.

2

FIND UNEXPECTED WATER USAGE

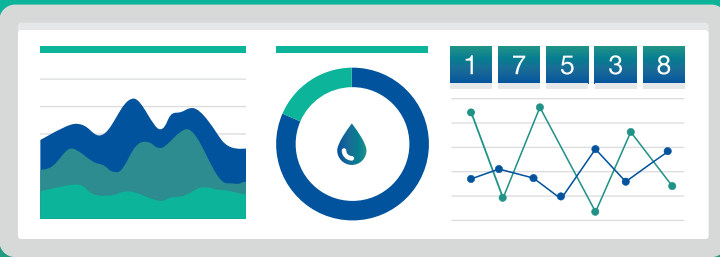

Check machinery, dripping taps, faulty flush mechanisms...

3

INTRODUCE EFFICIENCY MEASURES

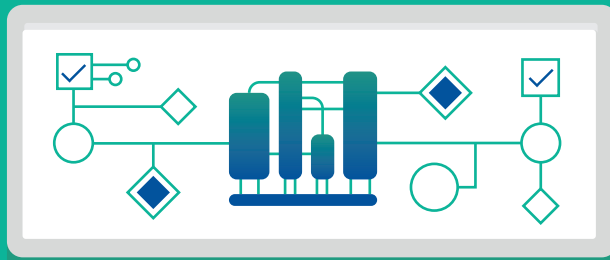

Focus on reducing intentional water usage.

4

IMPROVE PROCESSES

Conserve water by redesigning your processes.

5

LOOK AT STRATEGIC OPPORTUNITIES

Introduce a new water system like re-using water for example; Grey rainwater.

To find out more about how we can support your business to take a bespoke, strategic approach to water usage, read the full article, or contact us.
