

HOW TO REDUCE WATER WASTE

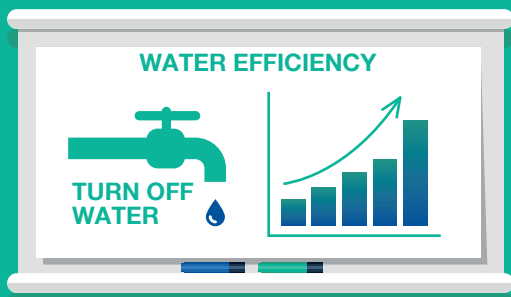

**No.1
RISK**

Water efficiency is a growing priority for business across the globe. Water is the number one risk for businesses. Here we look at ways to reduce risk exposure, ensuring high levels of CSR and sustainability.

1

MEASURE AND UNDERSTAND

Use sophisticated automated reading technologies, providing visibility of your usage and potential areas of wastage.

INTEGRATE WITH VISION AND VALUES

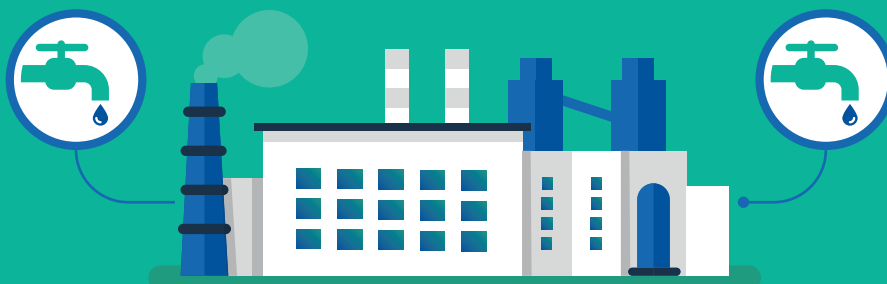

Encouraging employees to consider their water usage will help raise awareness of the impact of wasting water.

2

3

INVEST IN LONG-TERM WATER STRATEGY

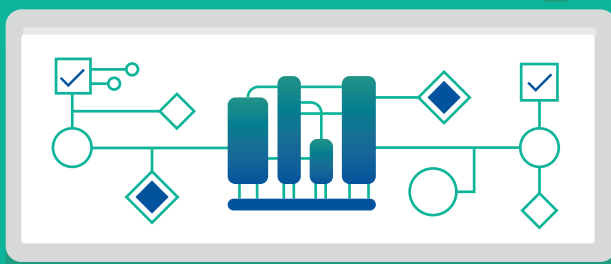

Understand how water affects your business, to plan and execute a strategy that delivers results.

4

DEVELOP YOUR BUSINESS'S WATER MANAGEMENT STRATEGY

Design, plan and implement a long-term water efficiency strategy that will help achieve your business objectives.

To find out more about how we can support your business to take a bespoke, strategic approach to water usage, read the full article, or contact us.
